

Soccer Balls

Solve each problem. Show your work.

Write an equation.

NOTE Students practice solving addition and subtraction story problems.

SMH 59–61, 67–69

1. Sally's soccer team had 27 soccer balls.
They loaned 9 of them to Franco's team.
How many soccer balls does Sally's team have now?

2. Jake's soccer team had 13 soccer balls.
Kira's team gave them 11 more balls.
How many soccer balls does Jake's team have now?

How Many Ducks?

Solve the problem. Show your work.

Write an equation.

NOTE Students solve a story problem about combining two quantities.

SMH 59, 60, 61

Yesterday, Sally went to the park.

She saw 19 ducks in the air and 14 ducks in the pond.

How many ducks did she see?
